**SOLUTION  
FOR CUTTING CONCRETE BLOCKS**

## OUR MISSION

To focus our efforts towards creating maximum value for the customer's money and in building lasting relationships.

### BS 207

Compact and easily manageable brick saw for saw blades  $\varnothing$  750 / 700 / 650 mm and cutting depth up to 295 mm

- rugged welded frame construction
- extremely heavy duty hot-dip galvanised cutting table
- powder coated components
- cutting table with recirculating ball bearing guide and precision spindle
- Belt driven by a rotomotive electric motor (132M)
- Diamond segmented circular saw blade TR7
- Belt Tightening mechanism
- Flexible nozzle for coolant supply.

## TECHNICAL SPECIFICATIONS

Ø saw blade	mm	600/650
bore	mm	50
max. cutting depth	mm	150/210
max. cutting length	mm	450
table size	mm	625 x 440
motor	Std	3.0 kw,5Hp
length	mm	1400
width	mm	720
height / transport height	mm	1360
weight	kg	100
